Mr. George Harlow, Chief
Water Enforcement Branch
U.S. Environmental Protection Agency
1421 Peachtree St. N.E.
Atlanta, Georgia

Dear Mr. Harlow:

On February 3, 1976, Mr. R. W. Jennings collected five water samples and two soil samples from this plant. These were to be analyzed for PCB's and was a part of the polychlorinated biphenyl survey conducted by your office.

If possible, I would like to obtain a copy of your analytical results concerning these seven samples.

Thank you for your assistance.

Sincerely,

Richard Lester
